Signhild Arnegård Hansen holds 278 shares in SEB.

Birgitta Kantola and Signhild Arnegård Hansen are independent in relation to the Bank and its management as well as in relation to major shareholders.

16. Decision on a Nomination Committee

The Nomination Committee proposes that the Meeting resolves on a Nomination Committee for the 2011 Annual General Meeting mainly as follows.

The Bank shall have a Nomination Committee consisting of one representative for each of the four largest, in terms of votes in the Bank, shareholders, or group of shareholders who wish to appoint a representative, and the Chairman of the Board of Directors. The names of the four shareholder representatives and the names of the shareholders they represent shall be published not later than six months prior to the 2011 AGM. One Director of the SEB Board shall be called additional member to the Nomination Committee. The additional member elected by and among the Board of Directors of SEB, shall be one of the independent Directors of the Board. The Nomination Committee shall remain in office until a new Nomination Committee has been appointed. Unless the members agree otherwise, the Chairman of the Nomination Committee shall be the member who represents the shareholder controlling the largest number of votes.

17. The Board of Directors' proposal concerning guidelines for salary and other remuneration for the President and members of the Group Executive Committee

The proposed guidelines comply in all material respects with the guidelines for remuneration approved by the AGM 2009. The guidelines furthermore comply with the Swedish Financial Supervisory Authority regulations on remuneration in financial companies as well as the Swedish Corporate Governance Code and are in line with international regulations. The remuneration structure is proposed to be based upon three main components; base pay, long-term equity based compensation and pension and other benefits. These three components shall form a competitive total remuneration within the market where the Executive is active. The President and members of the Group Executive Committee do not receive any short-term cash based variable compensation.

18. The Board of Directors' proposal concerning long-term equity based programmes for 2010

In order to attract and retain staff and build a long-term commitment to SEB among the participants, SEB includes long-term equity based variable compensation as an important part of the total compensation. Long-term equity based programmes in SEB are share-based. Participation in the Share Savings Programme and Share Matching Programme requires own investments. The Performance Share Programme and Share Matching Programme are performance based with predetermined quantitative performance criteria.

The Board of Directors has decided to propose that the Annual General Meeting decides, as for 2009, on three different programmes for 2010; a Share Savings Programme for all employees, a Performance Share Programme for senior managers and key specialists and a Share Matching Programme for selected top performers.

The maximum number of shares that can be transferred under the three programmes (excluding shares invested by the employees under the Share Savings Programme and Share Matching Programme) is 28.3 million. The calculated expected outcome is approximately 15.8 million shares. The maximum number of shares under the programmes equals approximately 1.29 per cent (expected outcome 0.72 per cent) of the total number of shares in the Bank.

The *maximum* annual charge for the three programmes, calculated according to the below, that may affect the profit and loss account is SEK 286m. With the exception of social charges, calculated to SEK 92m, paid out when the programmes are utilised, the maximum calculated annual charge does not affect equity. The annual charge to the profit and loss account for the *expected* outcome under the programmes is estimated to SEK 240m, out of which SEK 53m is related to social charges. The expected annual charge in the profit and loss account, SEK 240m, is equivalent to approximately 1.5 per cent of the total annual staff costs in the SEB Group.

The maximum annual charge is based on the assumptions that the price of the SEB Class A-share is SEK 45, that no participant in any of the proposed programmes is leaving SEB during the performance period, that the Performance Share and the Share Matching Programmes are fully vested from both criteria and that the investments in the Share Savings Programme are on the same level as for 2009. Furthermore, it should be noted that should the SEB share price increase from the assumed SEK 45 the increase in maximum calculated annual charge will be approximately SEK 7m for every SEK in increase.

a) Share Savings Programme 2010

All employees are offered to, during a twelve month period from the implementation of the Programme, from their salary, save an amount corresponding to five per cent of gross base salary and for the amount, at current price, purchase SEB Class A-shares. Purchases will be made during four periods, following the publication of the Bank's quarterly reports. If the shares are retained by the participant for three years from the investment date and the participant remains with SEB during this time, the Bank will give the participant one SEB Class A-share for each retained share.

b) Performance Share Programme 2010

A Performance Share under the Programme is a conditional right to acquire one Class A-share in the Bank at a future date at a price of SEK 10. The outcome of the Programme, i.e. the number of allotted performance shares that can be exercised, is dependent on how two pre-determined performance criteria are fulfilled. The performance criteria are a) total shareholder return compared to SEB's competitors and b) total shareholder return compared to the markets requirement for return based upon the rate of the Swedish 10 year government bond i.e. the long term risk free interest rate (LTIR). The performance criteria are measured during the initial three year performance period. A further requirement is that the participant remains within SEB. The Programme is proposed to have duration of seven years including the performance period.

c) Share Matching Programme 2010

For participants who receive short term cash based variable compensation for 2009 30 per cent of such gross outcome is mandatory deferred, under the terms and conditions for the Programme, for three years. The deferred amount is allocated to a deferral incentive pool and a for each participant determined number of deferral rights is registered in the pool. One deferral right shall correspond to the average market price for one SEB Class A-share during a predetermined period of ten banking days. After three years the participant receives one SEB Class A-share for each deferral right and, if a pre-determined performance criterion is fulfilled, three additional matching shares (SEB Class A-shares).

Participants who do not receive short term cash based variable compensation for 2009 makes an own investment in SEB Class A-shares equivalent to a pre-determined amount. Previously held shares or shares purchased on the market may be allocated. After three years, if the participant remains within SEB during this period, the participant receives one SEB Class A-share for each invested share. Furthermore, if a pre-determined performance criterion is fulfilled, the participant receives three to five additional matching shares, depending on position, for each invested and each received share.

The performance criterion is total shareholder return compared to the markets requirement for return based upon the rate of the Swedish 10 year government bond i.e. the long term risk free interest rate (LTIR). A further requirement is that the participant remains within SEB during the performance period.

19. The Board of Directors' proposals concerning the acquisition and sale of the Bank's own shares

The Board of Directors proposes that the Annual General Meeting decides mainly as follows:

a) Acquisition of the Bank's own shares in its securities business

Pursuant to statutory law, trading in own shares in the Bank's securities business is subject to the Annual General Meeting's resolution. The Board of Directors therefore proposes that the Annual General Meeting resolves that the Bank shall be allowed to purchase shares in the Bank in its securities business on a regular basis during the time up to and including the 2011 Annual General Meeting in accordance with Chapter 7, Section 6 of the Securities Markets Act (lagen (2007:528) om värdepappersmarknaden) up to a number not exceeding three per cent of the total number of shares issued at each time in the Bank. The price of the shares purchased shall be the market price prevailing at the time of acquisition.

b) Acquisition and sale of the Bank's own shares on the stock exchange for long-term equity based programmes

The Board of Directors proposes that the Annual General Meeting resolves to authorise the Board of Directors to decide on the acquisition and sale on the stock exchange of the Bank's own Class A-shares for the year 2010 and previous years' long term equity based programmes up to a number of 39,100,000 shares. The authorisation may be utilised on one or more occasions, however not longer than until the 2011 Annual General Meeting. Acquisition and sale of shares may only take place at a price within the price interval at any time recorded on the stock exchange, and this shall refer to the interval between the highest buying price and the lowest selling price.

c) Sale of the Bank's own shares to participants in the 2010 long term equity based programmes

There are different methods for effectuating the transfer of shares to the participants under the programmes, such as delivery of own shares and an equity swap agreement with a third party. The Board of Directors considers delivery of own shares as the most cost efficient and flexible method. The Board of Directors therefore proposes that the Annual General Meeting resolves that a maximum number of the acquired Class A-shares in the Bank, corresponding to the number of performance shares and shares respectively under the 2010 three long term equity based programmes, including compensation for dividends, may be sold/transferred to the participants under the programmes who are entitled to acquire/receive shares. Each and every participant has the right to acquire/receive a maximum of the number of shares that follows from the terms and conditions of the programmes respectively. The right may be exercised in the periods established under the programmes.

d) Acquisition and sale of the Bank's own shares to create amongst others possibilities to manage the capital structure of the Bank

The Board of Directors proposes that the Annual General Meeting resolves to authorise the Board to decide on the acquisition and sale of the Bank's own Class A-shares and/or Class C-shares, mainly on the following conditions. Acquisition of shares may exclusively take place on the stock exchange. Sale of shares may be made on the stock exchange or outside the stock exchange, with or without deviation from the shareholders preferential rights and with or without stipulations on contribution in kind or right of offset. The shares may be used as consideration for acquisitions of companies or businesses or in order to finance acquisitions of companies or businesses. The authorisation may be utilised on one or more occasions, however not longer than until the 2011 Annual General Meeting. A maximum of 48,000,000 shares may be acquired and sold, totalling a purchase price not exceeding SEK 2,000,000,000 which corresponds to approximately 2.2 per cent of the total number of shares in the Bank. Acquisitions may be paid by funds allocated by the 2005 Annual General Meeting in connection with the reduction of share capital by cancellation of previously acquired own shares.

20. The Board of Directors' proposal for amendment to the Articles of Association

The Board of Directors' proposes that Section 8 in the Articles of Association is amended to comply with new requirements on notice to General Meetings of shareholders in the Swedish Companies Act expected to come into force before the Annual General Meeting 2011. The proposed amendment implies that a notice of a General Meeting of shareholders shall be published in the Official Swedish Gazette (Post- och Inrikes Tidningar) as well as on the Bank's website. At the time of the notice, an announcement with information that the notice has been issued shall be published in Dagens Nyheter and in Svenska Dagbladet. The Annual General Meeting decision on the amendment is conditional upon that above referred amendment of the Swedish Companies Act comes into force.

Majority rules

There are requirements for resolutions to be passed in accordance with the Board of Directors' proposals under items 19 a), b) and d) and item 20 that the resolutions of the Meeting are supported by shareholders representing at least 2/3 both of the votes cast and of the shares represented at the Meeting. There is a requirement for a resolution to be passed in accordance with the Board of Directors' proposal under item 19 c) that the resolution of the Meeting is supported by shareholders representing at least 9/10 both of the votes cast and of the shares represented at the Meeting.
