“**MIFID II product governance / target market** – The Final Terms in respect of any Notes will include a legend entitled “MiFID II Product Governance” which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a **distributor**) should take into consideration the target market assessment; however, a distributor subject to Directive 2014/65/EU (as amended, **MiFID II**) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (the **MiFID Product Governance Rules**), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MIFID Product Governance Rules.”

On page 4 of the Information Memorandum, in the section entitled “*Important Information Relating to Non-Exempt Offers of Notes – Consent – General Consent*”, the following information shall be added as a new sub-paragraph (ii)(b)(1)(C) (and subsequent sub-paragraphs renumbered accordingly):

¹ Include for Notes that are not ESMA complex.

² This list may not be necessary, especially for Notes that are not ESMA complex where all channels of distribution may be appropriate. It reflects the list used in the examples in the ESMA Guidelines.

³ Include for certain ESMA complex Notes. This list may need to be amended, for example, if advised sales are deemed necessary. If there are advised sales, a determination of suitability will be necessary. In addition, if the Notes constitute “complex” products, pure execution services are not permitted to retail without the need to make the determination of appropriateness required under Article 25(3) of MiFID II.

⁴ To be considered on a case-by-case basis. If a negative target market is deemed necessary, wording along the following lines could be included: “The target market assessment indicates that Notes are incompatible with the needs, characteristic and objectives of clients which are [*details to be inserted*].”

⁵ If the Notes constitute “complex” products, pure execution services are not permitted to retail without the need to make the determination of appropriateness required under Article 25(3) of MiFID II. If there are advised sales, a determination of suitability will be necessary.

⁶ To be considered on a case-by-case basis. If a negative target market is deemed necessary, wording along the following lines could be included: “The target market assessment indicates that Notes are incompatible with the needs, characteristic and objectives of clients which are [*details to be inserted*].”

Recent Developments

On page 134 of the Information Memorandum, in the section entitled “*Recent Developments*”, the following information shall be added at the end of this section:

“Changes in resolution fund fee requirements

Swedish authorities have decided that the Swedish Resolution Fund fee for 2018 shall be 0.125 per cent. applied to the adjusted 2016 balance sheet volumes. The fee will be reduced to 0.09 per cent. for 2019 and to 0.05 per cent. from 2020 until the fund target is met. The fund target level, which is proposed to be 3 per cent. of guaranteed deposits, is expected to be reached by the year 2025.

Divestment of SEB Pension Denmark

On 14th December, 2017 SEB signed an agreement to sell all shares in SEB Pensionsforsikring A/S and SEB Administration A/S (SEB Pension) to Danica Pension livsforsikringsaktieselskab (Danica, a subsidiary of Danske Bank) for total proceeds of Danish kroner (**DKK**) 6.5 billion, consisting of a cash consideration of DKK 5.0 billion and a pre-closing dividend of DKK 1.5 billion. The pre-closing dividend will be in addition to the dividend of DKK 1.1 billion which SEB received in the first six months of 2017.

German Federal Ministry of Finance circular relating to cross-border securities lending and derivative transactions

The German Federal Ministry of Finance issued a circular on 17th July, 2017 with administrative guidance in relation to withholding taxes on dividends in connection with certain cross-border securities lending and derivative transactions. The circular states an intention to examine transactions executed prior to the change in tax legislation that was enacted 1st January, 2016. Following a review, SEB is of the opinion that the cross-border securities lending and derivative transactions of SEB up until 1st January, 2016 were conducted in compliance with then prevailing rules. It can nevertheless not be ruled out that a change in policy of German authorities may have financial effects on SEB.”

Section D – Risks

Element	Title	
D.2	Key risks regarding the Bank	<p>In purchasing Notes, investors assume the risk that the Bank may become insolvent or otherwise be unable to make all payments due in respect of the Notes. There is a wide range of factors which individually or together could result in the Bank becoming unable to make all payments due. It is not possible to identify all such factors or to determine which factors are most likely to occur, as the Bank may not be aware of all relevant factors and certain factors which it currently deems not to be material may become material as a result of the occurrence of events outside the Bank's control. The Bank has identified a number of factors which could materially adversely affect its business and ability to make payments due. These factors include:</p> <ul style="list-style-type: none"> • SEB's business, earnings and results of operations are materially affected by conditions in the global and regional financial markets and by global and regional economic conditions; • SEB remains exposed to the risk of increased credit provisioning; • SEB is exposed to declining property values on the collateral supporting

		<p>residential and commercial real estate lending;</p> <ul style="list-style-type: none"> • negative interest rates and volatility in interest rates have affected and will continue to affect SEB’s business; • market fluctuations and volatility may adversely affect the value of SEB’s securities portfolio, reduce its business activities and make it more difficult to assess the fair value of certain of its assets; • SEB requires significant funding to service its indebtedness and relies on the credit and capital markets to meet a significant part of its funding needs; • SEB is subject to the risk that liquidity may not always be readily available; • SEB’s borrowing costs and its access to the debt capital markets depend significantly on its credit ratings; • SEB could be negatively affected by the soundness or the perceived soundness of other financial institutions and counterparties; • SEB is and will continue to be subject to increased capital requirements and standards due to governmental or regulatory requirements and changes in perceived levels of adequate capitalisation, and may need additional capital in the future, which capital may be difficult to obtain; • effective management of SEB’s capital is critical to its ability to operate and grow its business; • SEB is exposed to foreign exchange risk, and a devaluation or depreciation of any of the currencies in which it operates could have a material adverse effect on its assets, including its loan portfolio, and its results of operations; • SEB is subject to a wide variety of banking, insurance and financial services laws and regulations, which could have an adverse effect on its business; • SEB operates in competitive markets, which could have an adverse effect on its financial condition and results of operations; • SEB’s life insurance business is subject to risks involving declining market values of assets related to its unit-linked business and traditional portfolios and inherent insurance risks; • fraud, credit losses and delinquencies, as well as regulatory changes, affect SEB’s card business; • SEB’s guidelines and policies for risk management may prove inadequate for the risks faced by its businesses; • weaknesses or failures in SEB’s internal processes and procedures and other operational risks could have a negative impact on its financial condition, results of operations, liquidity and/or prospects, and could result in reputational damage; • the information technology and other systems on which SEB depends for its day-to-day operations may fail for a variety of reasons that may be outside its control. SEB is also subject to the risk of infrastructure
--	--	--

		<p>disruptions or other effects on such systems;</p> <ul style="list-style-type: none"> • in order to compete successfully, SEB is dependent on highly skilled individuals; SEB may not be able to retain or recruit key talent; • SEB’s accounting policies and methods are critical to how it reports its financial condition and results of operations. They require management to make estimates about matters that are uncertain; • SEB may be required to make provisions for its pension schemes, or further contributions to its pension foundations, if the value of pension fund assets is not sufficient to cover potential obligations; • SEB is exposed to the risk of changes in tax legislation and its interpretation and to increases in the rate of corporate and other taxes in the jurisdictions in which it operates; • SEB is exposed to risks related to money laundering activities and sanctions violations; • catastrophic events, terrorist acts, acts of war or hostilities, pandemic diseases or geopolitical or other unpredictable events could have a negative impact on SEB’s business and results of operations; • SEB may incur significant costs and increased operating risk in developing and marketing new products and services; • any impairment of goodwill and other intangible assets would have a negative effect on SEB’s financial position and results of operations; • a significant part of the Group’s Swedish retail mortgage portfolio comprises the Cover Pool for the Covered Bonds issued by SEB and holders of Covered Bonds and certain derivatives counterparties have priority over holders of SEB’s unsecured obligations.
D.3	<p>Key information on key risks regarding the Notes</p>	<p>There are also risks associated with the Notes, including a range of market risks, as follows:</p> <ul style="list-style-type: none"> • if the Bank has the right to redeem any Notes at its option, this may limit the market value of the Notes concerned and an investor may not be able to reinvest the redemption proceeds in a manner which achieves a similar effective return; • if the Bank has the right to convert the interest rate on any Notes from a fixed rate to a floating rate, or vice versa, this may affect the secondary market and the market value of the Notes concerned; • the interest rate on Fixed Reset Notes will reset on each Reset Date, which can be expected to affect interest payments on an investment in Fixed Reset Notes and could affect the secondary market and the market value of the Fixed Reset Notes concerned; • Notes which are issued at a substantial discount or premium may experience price volatility in response to changes in market interest rates; • an extension of the maturity of any Notes which have an Extended Maturity Date will not result in any right of the Noteholders to accelerate payments or take action against the Bank; • in the case of Subordinated Notes, (i) there is a real risk that holders will
